Sports Project?

A photometric analysis creates a computer simulation of a particular project. No  
matter what you are lighting, a photometric analysis is an easy way to quantify  
light levels before purchasing. When a report is generated, a lighting specialist will  
walk you through it so you know exactly what you will be receiving. Photometric  
studies include average and minimum footcandles, uniformity ratios, spacing, light  
trespass info, and more. Plus, the cost of the study is refunded back to you when  
you purchase the fixtures. Call us at 800-468-9925 for more information about  
ordering a photometric analysis for your project.
