Product Description

Access Fixtures LED Lighting fixtures set a high bar for bocce match illumination. The 200,000 hours L70 rating translates to virtually maintenance-free. Minimized energy use together with low (or no) maintenance results in the perfect marriage of performance, efficiency, and sustainability. Do-it-yourselfers will love this budget-friendly bocce LED lighting package. **Purchase wood poles locally, or follow our attached PDF guide to learn how to create your own DIY poles.**

Precision Design for Optimal Light Levels

This package fits a 12' x 70' bocce court. Your two poles, with one luminaire each, are evenly spaced on the same side of the court. This layout provides **11 average footcandles** and a **max/min (uniformity) ratio of 2.67** which assures the court is consistently illuminated. A max/min uniformity in the 3 range or less is considered very good, the lower the ratio number, the better uniformity.

Reliable Energy-Efficient LED Bocce Court Fixtures

This Bocce LED Lighting package includes weatherproof, energy-efficient, extreme-life, APTA LED sport lights. Their modular construction features interchangeable components that are all but indestructible. If however, repair were needed, modules can be replaced individually. Boasting 130 watts per lumen, this package reduces energy cost by at least 50% when compared to old-fashioned incandescent or pulse start-metal halide systems

Luminaires: 2) APTA 120 LED Sport Lights with Slip Fitter Mounts

Number of Luminaires: 2

Fixture Wattage: 120

Surge Protection: (optional)

- Assembled in the United States Poles Not Included But Easy to Make

Supplying and installing your own wood poles is simple and cost effective. Access Fixtures recommends direct burial installation. Starting with a 20' long pole, 3 feet is direct buried and 17 feet remains above the surface. The pole is placed into an augured hole lined with gravel then back filled with native soils, stone dust or cement. Wood poles and direct burial provides the following benefits.

Monetary - Lower cost materials and no need for expensive footings

Time Savings - Faster installation than poles that require cement bases

Simple - No reliance form work or cement pouring schedules

Appearance - No exposed base plates or anchors bolts

Secure Mounting Included

This package mounts one fixture on each pole using the 90-degree mount (included). Poles are not included. For more information about the fixtures, mounts, or the DIY poles, call 800-468-9925 or send us an email at customerservice@accessfixtures.com.

Access Fixtures Bocce Court Lighting Provides Exactly What You Need

Access Fixtures lighting specialists use the most advanced photometric software to make sure you get the perfect bocce court for your particular site. As the premier expert in court lighting, Access Fixtures has designed court lighting for clubs, schools, and HOAs, as well as home courts across the US and the Caribbean. Few courts have identical needs. Some regions have local ordinances regulating light trespass, glare, and light pollution. Packages for coastal regions benefit from custom adaptations to compensate for wind, salt spray, and other local weather conditions. If you have any questions, our knowledgeable lighting specialists in Worcester, MA are available to walk you through your bocce LED lighting project. Call us today at 800-468-9925 to discuss your project. You can also email us at customerservice@accessfixtures.com.

Access Fixtures Warranty

Access Fixtures is proud to assemble high quality, long lasting lighting products which are covered by a 5-year warranty.
