Product Description

CLYD 19w LED Full Cutoff Bollard Light, 120-277v is a unique full-cutoff bollard light designed with special lighting requirements in mind. The full cutoff shields that come standard with this product allow for ideal use in dark sky friendly communities and places where light trespass can be an issue. This bollard light distributes 1 footcandle of light, up to 6 feet away from the fixture, or in 12 foot diameter.

Full Cutoff: This bollard light is designed with light trespass regulations in mind as

well as dark sky friendly communities. Light is only emitted downward.

Small, Compact Design: CLYD is a smaller bollard with a diameter of only 4 3/4" and a standard height of 34". This makes it perfect for smaller areas and landscape lighting applications.

3 Shielding Options: With a 360 degree, 180 degree, and 120 degree shielding option, customers can direct light exactly where they need it.

Other Features:

- 19w integrated LED - Dimmable 0-10v - 120-277v - Type 5 wide optics - Up to 702 lumens - 80 CRI - 147,000 hour L70 rated life - IP66 rated against dust and water - Anchor bolts, mounting templates included
 - Options:**
 - Choice of 4000K or 5000K - Choose a 360 degree (non-shielded), 180 degree backlight shield, or 120 degree backlight shield - Choice of height - 34" or 30" - Choice of Finish - Black, bronze, and custom RAL colors available upon request
 - Add surge protection or a GCFI outlet - Choice of shipping anchor bolts ahead of time or with bollard light
- Access Fixtures 5-Year Warranty

All Access Fixtures products come with a 5-year warranty. If your product is found to have a manufacturing defect, we will replace components, the entire product, or issue a refund. We stand behind the quality of our products. Our customer service team, located in Worcester, MA, is happy to address any questions, comments, or concerns you may have. Please give us a call at 800-468-9925. Please view Access Fixtures [return policy](#). Need a Photometric Analysis for Your CLYD 19w LED Full Cutoff Bollard Light Project?

A photometric analysis creates a computer simulation of a particular project. No matter what you are lighting, a photometric analysis is an easy way to quantify light levels before purchasing. When a report is generated, a lighting specialist will walk you through it so you know exactly what you will be receiving. Photometrics include average and minimum footcandles, uniformity ratios, spacing, light trespass info, and more. Plus, the cost of the study is refunded back to you when you purchase the fixtures. Call us at 800-468-9925 for more information about ordering a photometric analysis for your project.

Ready to Order CLYD 19w LED Full Cutoff Bollard Light, 120-277v or Speak to a Lighting Specialist?
