Get a Custom Photometric Analysis for Your DAHL 100 Explosion Proof Spot Light, 120-277v Project

A photometric analysis is a custom computer simulation of your particular project.

This service provides average footcandles at various heights, max/min (uniformity) ratios, minimum footcandles, light trespass levels, and more. For exacting lighting specifications, a photometric analysis helps you ensure light levels before making a big purchase. One of our lighting specialist will walk you through the process so you know exactly what you will be receiving. Call us at 800-468-9925 or customerservice@accessfixtures.com for more information about ordering a photometric analysis for your project.
