Product Description

The MARI 35w LED Turtle Friendly Marine Louvered Round Dome Top Bollard Light, 120-277v is finished in an extremely durable marine-grade coating that is designed to withstand ocean water, salt spray, and more. MARI turtle friendly bollard light is an ideal for wildlife applications including recreational facilities, waterfront

pathways and walkways in wet, coastal environments.

Marine-Grade Finish: High-performance, marine-grade AAMA 2605-rated paint stands up to all kinds of rough weather. Tested for salt-spray resistance for 4,000 hours, the finish shows minimal color, dulling even after 10 years. For guaranteed protection, both the inside and outside of the housings are painted.

Louvers: Light is directed downward and outward in a 360-degree circle via the die-cast metal louvers. A 35w LED array at the top of the bollard head delivers a total of 1133 lumens.

Turtle and Wildlife Friendly: The energy efficient monochromatic amber LEDs are turtle and wildlife friendly. Using 590nm follows most coastal light regulations.

Other Features

- 35w integrated LED - Amber LED color temperature - 120-277v - 50/60 Hz driver - 1133 lumens - IP65 rated - 50,000 hour L70 rated life - Lens-free exterior prevents LED condensation - 42" tall - 8" diameter - 19 lbs - Rated for use in temperatures from -4°F to 113°F. - All mounting hardware including 10-inch steel anchor bolts

Need a Photometric Analysis for Your MARI 35w LED Turtle Friendly Marine Louvered Round Dome Top Bollard Light, 120-277v Bollard Project?

A photometric analysis creates a computer simulation of a particular project. No

matter what you are lighting, a photometric analysis is an easy way to quantify light levels before purchasing. When a report is generated, a lighting specialist will walk you through it so you know exactly what you will be receiving. Photometrics include average and minimum footcandles, uniformity ratios, spacing, light trespass info, and more. Plus, the cost of the study is refunded back to you when you purchase the fixtures. Call us at 800-468-9925 for more information about ordering a photometric analysis for your project.
