

STAK LED Sports Light

Lightweight and Durable: This fixture boasts a small frame, light weight and low EPA that facilitates easy replacement of HID using most existing poles.

Maximum Light Output: High lumens per watt and premium optics design provide maximum light output with minimal glare and overall superior performance.

Precision Optics: This fixture is available with a choice of 25° or 60° precision optics and an optional laser to help you position the light exactly where it's needed.
